Thomas

You may remember meeting Thomas in our March 2024 edition of Treloar's Today. He very kindly wrote the covering letter and shared his experience of presenting at the Action Duchenne Annual Conference.

Thomas was diagnosed with Muscular Dystrophy at a young age, making school very difficult for him. He has now featured in a film about the impact attending Treloar's has had on his life, including overcoming many obstacles and his anxiety and fears of meeting new people.

Since starting at Treloar College, he is happier, has made friends, and is able to access his education. This has been life-changing for Thomas and his family.

Hannah

Since arriving at Treloar College, Hannah's life has turned around. After attending a mainstream school which wasn't right for her, Hannah is thriving at Treloar's. She is currently undertaking a Supported Internship. Two days a week she works in the community supporting Dementia Friendly Alton. In College we meet Hannah in the Employability and Vocational College classroom and see how an idea in a digital skills class turned into a real-life student-led enterprise.

Find out how Hannah has found her confidence and happiness whilst being at Treloar's.

Thank you for supporting Treloar's and helping our students be more independent and fully take part in life

"For my son to be in a peer group setting and have the education and support of the wonderful staff. He absolutely loves all things about the school from the bus ride in, form time, school assembly, outdoor learning, physio, all lessons, making friends, lunches. So many things to mention. Treloar's is a fantastic school. We are very happy with the progress that our son is making. A huge thank you."

Your donations help to cover all the areas mentioned above and more.
